P-528 PAINT REMOVER	Effective Date: 30-6-2014

DESCRIPTION

P-528 Paint Remover is a very strong cold dip paint remover specially designed for removing synthetic paint finishes. P-528 is a two-phase product comprising a lower layer of strong solvent for stripping off the paint as well as an upper layer aqueous solution designed to prevent evaporation of solvent.

FEATURE

- Excellent stripping power
- No mixing required
- Can be used on all types of metal
- Excellent bath life
- Economical

PRECAUTION MEASURE

- (a) Corrosive to skin! Handle with extra care. Wear chemical resistant glove, goggle while handling.
- (b) Bottom layer of solvent is flammable. Keep away from spark, heat and naked flame. DO NOT smoke while handling.
- (c) DO NOT agitate or shake the drum before open. It will create high pressure internally.
- (d) Contains M.C. & T.C.E. DO NOT swallow or contact with skin. Refer to MSDS for first-aid measures.

DIRECTION FOR USE

Pour the full drum of P-528 into a cold dip tank. If whole drum is not used, mix the content well before de-caning. Remove heavy soil / dust / dirt from the parts to be stripped. Immerse and remove stripped process will take about 2 - 15 minutes. Occasionally remove sludge from bottom tank to avoid deterioration of the product.

PHYSICAL PROPERTIES

Appearance	:	Slightly Milky.
PH value	:	5.5 +/-0.5
Odor	:	peculiar sweet bitter odor.
Specific Gravity	:	1.05 @ 25°C

DISPOSAL METHOD

Dispose in accordance to incineration method.

SHELF LIFE

2 years in unopened container, stored in dry and cool place.

PACKING

500ml, 1000ml, 4Ltr.
