P-517 RUST CONVERTER PRIMER	Effective Date: 30-6-2014

DESCRIPTION

P-517 RUST CONVERTER PRIMER is a special blend of chemicals containing mild acid, solvents and Surfactants.

P-517 destroys red rust and keeps it away, and provides a high adhesion primer.

SPECIFICATIONS

Appearance : milky liquid
Colour : light cream.
Hard drying time : 24 hours.

RECOMMENDED TO USE

P-517 fight rust on: Storage Tanks; Railings; Rooftop; Equipments; Bridges; Scaffolding; Girdled; Piping; Pipe Fitting; Valves; Welds; Castings; Steel Structures; Car bodies etc.

METHOD OF USE

1. **P-517** can be used when temperatures are between 10 deg. C to 40 deg. C. Do not apply when wet or raining (dew, fog) conditions exist.
2. Brush off loose and flaked rust, Remove any grease, oil films, fingerprints or oil paints.
3. Pour **P-517** into separate container for application. Do not pour excess back into original **P-517** container.
4. **P-517** may be brushed or sprayed and two coats are recommended with a 30 minute drying time in between the coats, under normal conditions.
5. **P-517** turns dark green to black on ferrous (iron and steel) surfaces.

For best corrosion protection follow with enamel top coating after **P-517** has fully dried.

PHYSICAL PROPERTIES

Eyes contact : severely irritating
Skin contact : mild and does not attack skin.
